

# PROJECT REPORT

## SQUARE-CHECKER

### Introduction About Game:-

1. *This is a game which is fun to play which we used to play when we were in school.*
2. *So, idea came from there to make this game.*

### How To Play Game:-

1. *Player 1 starts the game*
2. *Click on edges to mark them*
3. *If a box is made, it gets shaded with the player assigned color.*
4. *When all the edges are marked, the result is displayed on the result screen.*
5. *Player with more number of squares wins.*
6. *Click anywhere on the result screen to play again.*

## *Languages Used :-*

*1.This whole game is made from python.*

## *System Requirements:-*

*You Should Have Tkinter, Numpy and Pygame installed in your PC.*

## **TEAM:-**

*1. IMT2020088 – HEET VASANI*

*2. IMT2020044 – PREM SHAH*
